Constellation, an Affiliate Program member of the Commission on Independent Colleges and Universities, has proven success in working with Colleges and Universities across the country. Read some of our success stories below to find out how Constellation can help you reduce energy costs and improve efficiency with an integrated approach to energy.

**Constellation Customer Stories: Stevenson University**

When Stevenson University in Maryland needed to upgrade its lighting to more energy-efficient fixtures, but couldn’t fit it in the budget, Constellation had a solution. Blaire Miller, Constellation’s Sr. Business Development Manager and Stevenson University graduate, met with school officials, assessed their problems, and enrolled her alma mater in Efficiency Made Easy so they could get the improvements they needed.

Constellation installed 3,603 high-efficiency lights and 275 sensors across the campus. “We were able to do the upgrades in just two months,” says Jon Wells, Stevenson’s Director of Facilities Operations. “The money we’re saving on utility and maintenance costs can now be redirected to academic programs, faculty and staff.” “Constellation has put us ahead of the curve for energy conservation and lowering our carbon footprint,” says Leland Beitel, Assistant Vice President of Facilities and Campus Services. “It’s a huge impact.”

**Endorsed Association Relationships**

Energy is one of the top five expenses for many schools, colleges and universities. Today, more energy managers are looking to Constellation to develop energy strategies to help manage these costs. The Association of Independent Colleges & Universities of Pennsylvania (AICUP) energy program helps members develop energy management solutions to protect their bottom line.

Constellation has been the endorsed energy supplier to AICUP for over five years (since May 2009) and serves 27% of their members.

AICUP’s Tim Alexander, Vice President of Finance, has seen many of his members team up with Constellation to manage their campus’s energy costs. “As annual budgets become increasingly challenging, AICUP members have benefited greatly from cost management solutions allowing for accurate fiscal forecasting. Having the ability to purchase electric power months ahead of restructuring is yet another benefit of our established relationship with Constellation.”

For more information about Constellation and to learn how you can stand out to students and parents with creative solutions to complex energy challenges, contact Peggy Scanlon, Sr. Association Manager, Constellation, at margret.scanlon@constellation.com, 212-885-6475, or constellation.com/CICU.
Constellation, an Exelon company, is a leading competitive supplier of power, natural gas, renewable energy and energy management products and services for homes and businesses across the continental US. We provide integrated energy solutions that help customers strategically buy, manage and use their energy. Our customers, including two-thirds of the Fortune 100, rely on our commitment to innovation, reliability, transparency and service. That is the kind of value you and your communities can expect from Constellation.

Products to Help You Buy, Manage and Use Your Energy:

**Electric Power Supply**
- Fixed Price
- Flexible Index Solutions
- Block Solutions
- MVPe
- i2i

**Natural Gas Supply**
- Managed Portfolio Services (MPS)
- Minimized Volatile Pricing (MVP)
- Managed Procurement Fund (MPF)

**Strategic Load Response**
- Automated Load Control
- Demand Response
- Ancillary Services
- Economic Programs
- Peak Load Management

**Renewable Energy**
- Renewable Energy Certificates
- Geothermal Heat Pump Systems
- Biomass Plants

**Solar Solutions**
- Solar Power Purchase Agreements
- On-Site Solar Installations
- Solar Leasing

**Online Energy Management**
- EnerPro (Natural Gas)
- My Account BETA (Electric Power)
- VirtuWatt (Load Response)

**Energy Efficiency Upgrades**
- Lighting
- Building Envelope
- Building Management Systems
- HVAC
- Water Conservation Measures

**Central Plant Outsourcing**
- Chilled Water Systems
- Boiler Plants
- Heat Recovery Systems

**Building Solutions**
- Mechanical Services
- Maintenance Contracts
